

## WHAT IS IT?

AXON's TrialDiagnostic™ is a complete trial assessment focusing on key challenge(s) such as slow recruitment and/or declining retention. The diagnostic will assess:

## WE WILL...

### UNCOVER

any unknown and/or regional challenges

### CONFIRM

pitfalls and successes

### UNDERSTAND

key stakeholder perceptions

### ESTABLISH

site profiles

### IDENTIFY

opportunities for improvement

## HOW LONG DOES IT TAKE?

A TrialDiagnostic™ can be completed within 6-8 weeks. Timelines are dependent upon urgency of completion as well as key stakeholder availability and commitment from trial team

## WHY IS IT USEFUL?

Discovery informs the way forward. By conducting a comprehensive TrialDiagnostic™, we are able to assess the trial's recruitment/retention landscape and provide informed, tailored recommendations that are complementary to any existing initiatives

## WHAT IS INVOLVED?

AXON's TrialDiagnostic™ employs qualitative and quantitative assessment methods

### SITE PERSPECTIVE

Select site interviews  
Online survey

### TOOLS & RESOURCES

Materials review

### SPONSOR PERSPECTIVE

Key stakeholder interviews

### EDUCATION & COMMUNICATION

Site training review  
Site outreach review

Extent of assessment is dependent upon data and tools provided by sponsor.

## WHAT ARE THE OUTPUTS?

The full analysis is packaged into a digestible report

### EXECUTIVE SUMMARY

### QUANTITATIVE FINDINGS

### QUALITATIVE FINDINGS

### SHORT AND LONG-TERM RECOMMENDATIONS
