

TRIALSCAN™

WHAT IS IT?

AXON's TrialScan™ is an interactive workshop where our specialists work with your trial team to identify potential barriers and opportunities to the trial's success and provide recommendations on how to address these challenges.

BENEFITS TO PARTICIPATION

- | Exposure to a structured approach for addressing barriers to clinical trial success
- | Protected time for the trial team to think strategically about key challenges
- | Analysis and insight from an objective industry expert

SESSION FORMAT

- | Face-to-face workshops
- | Two and a half hours
- | Short presentations and open discussion/brainstorming

SESSION PREPARATION

Required resources in advance:

- | Protocol
- | Current study status
 - Recruitment and screen failures
 - Retention
 - Site activation
- | Participating countries
- | Information about study sites
- | Initiatives, tools, and resources to support patient recruitment and retention

WHICH TRIAL SHOULD YOU CONSIDER PARTICIPATING?

- | Furthest behind in patient recruitment
- | Weakened relationship with study partners (ex, CRO, sites, affiliates)
- | Highest discontinuation rate
- | Motivation plateau for sites and CRAs
- | Most important to sponsor's market pipeline

WHAT ARE THE OUTPUTS?

- | A preliminary diagnostic report:
 - Overall findings
 - Critical areas for improvement
 - Recommendations for success
